

ADAP UPDATE!!

The following medication has been added to the ADAP formulary effective November 2007:

Integrase Inhibitor

Raltegravir (**Isentress**) Exception Criteria: NRTI and NNRTI experienced or contraindicated with either a viral load greater than 400 or intolerance to current regimen, and prior experience with 1 or more PIs. ADAP Medication Exception Form documenting authorized indications in the “Reason for Exception” section. [Medication Exception Form required](#) only with the *initial* prescription. This is a **new** class of antiretrovirals.

Note: Clients who have participated in a raltegravir clinical trial or expanded access program will be eligible to receive the medication. Clinicians will need to indicate study participation under “Reason for Exception” on the ADAP Medication Exception Form.
